

A photograph of a vast, icy Antarctic landscape. The foreground is dominated by large, jagged ice formations and snowdrifts. In the background, a range of snow-covered mountains stretches across the horizon under a clear, pale blue sky. The overall scene is one of extreme cold and desolation.

Land Vehicles of Antarctica

Name: Tucker Sno-Cat

Special Features: It has tracks instead of wheels which grip the ice and snow. This is the tractor of Antarctica!

Name: Hägglund
Special Features: It floats... just in case!

Name: Ivan The Terra Bus

Special Features: Carries passengers from the aeroplane to where they will stay!

Name: Mars-1 Humvee

Special Features: There is space for 2 people to sleep and do science experiments!

Name: Ford E-Series Vans

Special Features: It has 6 wheels. It is a popular car in Antarctica.

Name: Foremost Delta Two

Special Features: Big metal shed on the back for transporting passengers.

Name: Lotus Concept Ice Vehicle

Special Features: It is Super-light. Moves by a propeller, but has skis instead of wheels (like a land aeroplane). It can tell if the ice is thin so no heavy vehicles fall through the ice!

Name: Foremost Delta Two
Special Features: The horses of Antarctica!

Name: Foremost Delta Two

Special Features: The truck of Antarctica, can add different bits on the back, like a passenger cabin.
